

Adnan Mulić

student at Faculty of Information Technologies

Experience

Stack doo. intern

April 2025 - June 2025

Worked in a small team to make an application for digitalization of blood transfusion records in hospitals.

Organizations

Baby member, BEST Mostar

2022 - 2023

A non-profit and non-political organization. Provides communication, co-operation and exchange possibilities for students all over Europe. Was my first experience working with a large group of people organizing an online hackathon event.

Projects

You can explore a full list of my projects with detailed descriptions on my portfolio website: www.adica.dev

Certificates

- Kulturni centar "Kralj Fahd" - Introduction to Angular
- Futures Leaders Summit - Certificate of Appreciation

Education

Bachelor's degree, Faculty of information technologies, Mostar

2020 - present

Started with basic programming concepts using low level languages (C++), progressed to more advanced concepts in programming - while using C# (ASP .NET) and frameworks such as Angular, React.

Medical Technician, SSK Silvija Strahimira Kranjčevića, Livno

2016 - 2020

Not related to programming, but I learned a lot of concepts and skills while I was attending this high school.

 Livno, Bosnia and Herzegovina
